

NCR P1215/P1515 POS Terminals

For the hospitality industry

Want to spur sales with a low-cost, high-value hospitality POS?

YES

Accelerate service with a highly reliable hospitality POS

The 15 series POS Terminal is custom-designed for fast-paced food service operations. This cost-effective, compactly sized sales tool can be installed anywhere in your restaurant, streamlining customer service. The 15 series POS Terminal connects to as many as 10 peripherals, linking your servers and maximizing their productivity. Benefits include:

- **Accelerating customer service**

The 15 series POS terminals provide a bright 12 and 15-inch touchscreen display and fast sign-on options, enabling quick and accurate transactions.

- **Reducing technology costs**

The 15 series POS Terminal is a perfect starter solution for individual restaurants. However, it's also powerful enough for large hospitality operations that require non-stop basic POS support.

- **Increasing sales flexibility**

The 15 series POS makes it easy and convenient for staff and customers. This solution can be installed on quick-service counters, drive-thru booths or the entrance of dining rooms.

- **Supporting fast-paced sales operations**

With its rugged design, the 15 series POS Terminal is built for daily usage. You'll have peace of mind knowing you can maximize sales opportunities without fear of technology failures.

- **Reducing total cost of ownership**

With its unmatched value, strong performance and long lifespan, the 15 series POS Terminal will pay for itself many times over.

- **Benefitting from green technology**

The 15 series POS Terminal doesn't use a fan to cool its electronics. As a consequence, it delivers better performance and reliability, while reducing power costs.
