

"What are your customers saying about you?"

Customer Voice

OUTSTANDING. The staff is extremely friendly and take the time to explain the ingredients....

Needless to say, neither my wife and I nor our friends will be going back. What a huge disappointment..

I had the tacos and it was just average; not worth \$13 that's for sure. I should get some courage and complain in person but I'd rather post my feedback online.

Food prices were not high, but that didn't create a value for me- would rather have well-prepared, higher quality food with portions much smaller.
