

POS as a service

Aloha[®]

It just makes sense

INTRODUCING A NEW MODEL for buying and maintaining point of sale. Instead of buying your system upfront, make all-inclusive monthly payments and benefit from an immediate return on your investment.

- Affordable and convenient POS used by thousands of restaurants everywhere
- Never worry about maintenance costs – you're covered
- Keep your technology up-to-date – get new hardware every five years
- Own the system if you want, with buyout options after just 18 months of participation

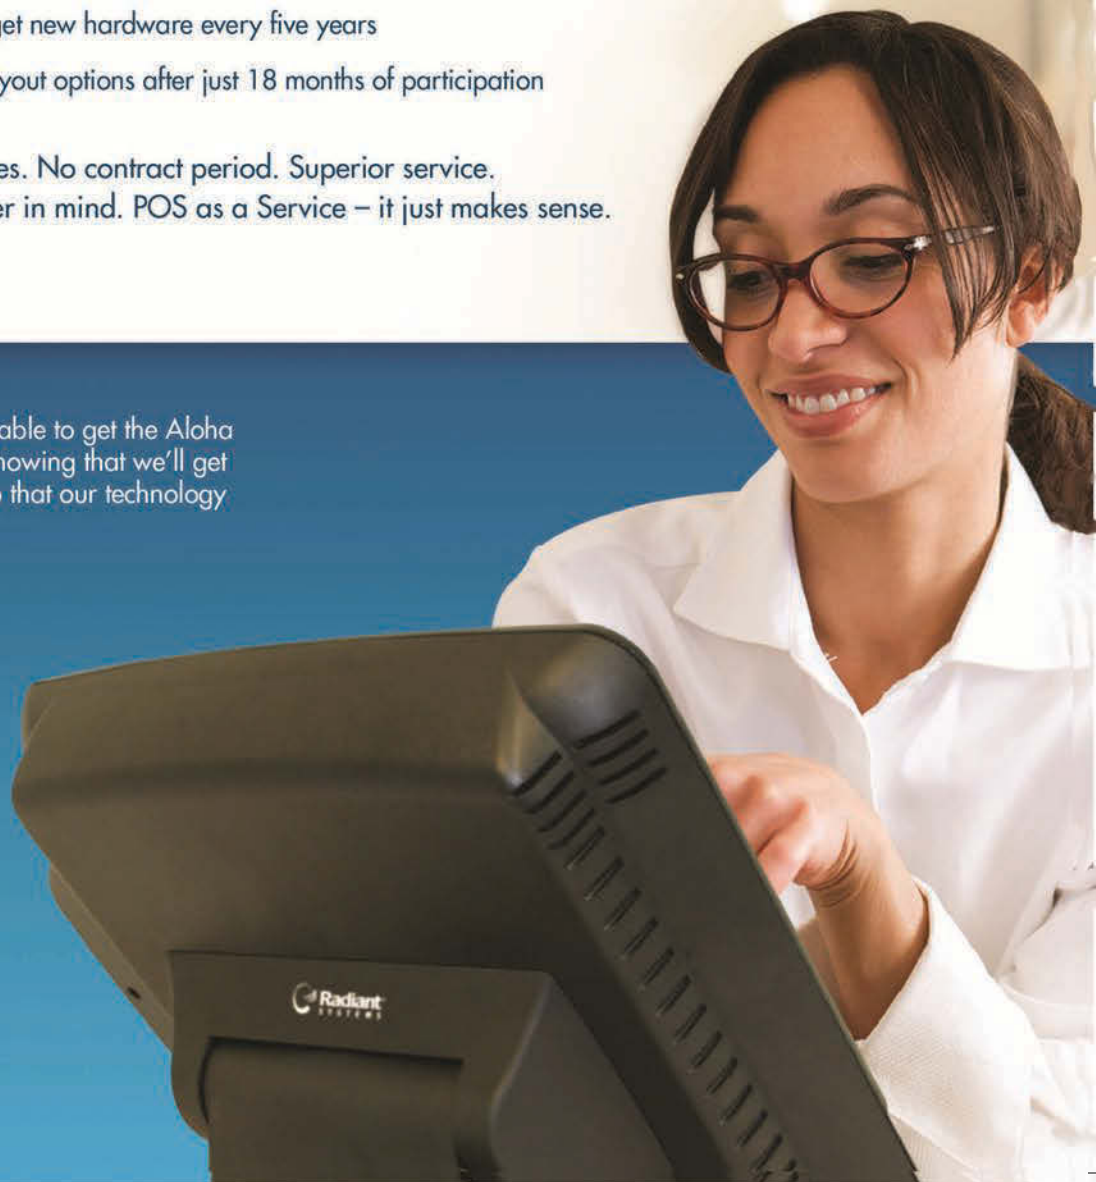

Low monthly payments. No hidden fees. No contract period. Superior service. A program designed with the customer in mind. POS as a Service – it just makes sense.

With POS as a Service, we were able to get the Aloha solution at a low monthly fee. It's great knowing that we'll get new terminals and servers in five years so that our technology will never be obsolete!

The low upfront capital investment allowed us to use the funds to make tenant improvements. We love that we can focus on managing our restaurant, not technology.
