

Wireless That Works!

Installed in 45 countries, with more than **20,000** sites, **NCR Aloha's Orderman Sol™** wireless handheld solution has a distinct advantage:

Both hardware and software are purpose-built for the hospitality industry, taking your unique environment into consideration. With more than **15,000,000** transactions daily worldwide, **NCR Aloha's Orderman Sol™** is the overwhelming market leader in hospitality handheld ordering. If a purpose built device like the Sol is an overkill for your operation, then use your I-phone, I-touch, I-pad or and ios device.

"On average, **10%** of the staff's time is spent walking to and from the point-of-sale (POS) terminal and waiting for the terminal to be free. Spending more time in front of customers, allows for more selling, and changes the dynamic of customer interaction in a profound way. **NCR Aloha's Orderman Sol™** is market proven, available today, and unlike most other handheld products on the market, it actually works!
